GENERAL INDEX TO VOLUME XII.

[NOTE.—Titles of papers are printed in *italics;* names of authors and participants in debate are printed in SMALL CAPS.]

PAGE

Accident-preventing devices applied to machines, John H. Cooper..... 249
Acid, effect of, on cast-iron plates..... 1014
Acid on iron, action of, in mine water, etc..... 525
Accumulators for hydraulic hoisting..... 280
ADAMS, W. H., an engineering problem at Richmond, Va..... 451
Additional contribution to the perfect screw problem, W. A. Rogers..... 725
Address, annual, 1890, Oberlin Smith..... 42
Alcohol engine, efficiency of..... 155
ALDEN, G. I., a new belt-testing machine..... 700
" " disc., application of Hirn's analysis..... 817
" " " effect of the steam-jacket on cylinder condensation..... 881
ALMOND, THOS. R., a novel form of flexible tubing..... 197
" " disc, the premium plan of paying for labor..... 770, 775
Amendment proposed to rules..... 27
Ammonia, latent heat of..... 307
Ammonia, some properties of..... 133
Ammonia engine, efficiency of..... 155
Ammonia ice-machine..... 326
Application of Hirn's analysis to engine testing, and a method of measuring directly the quality of steam in the clearance spaces, R. C. Carpenter.... 790
Application of Hirn's analysis to multiple expansion engines, Cecil H. Peabody..... 740
ASHWORTH, DANIEL, disc., blast furnace blowing engines..... 686
" " " the premium plan of paying for labor..... 774
Authorities on the steam-jacket: facts and current opinions, R. H. Thurston... 462
Automatic regulation of injection water to vapor condensers, Jas. McBride... 187
Automatic stop-valves for hydraulic plant..... 292
Avery engine..... 901

BABBITT, GEO. R., disc., corrosion in a boiler drum..... 520
BALL, FRANK H., disc., the premium plan of paying for labor..... 769
BARNES, D. L., disc., water pyrometer..... 1051
BARR, WM. M., disc., corrosion in a boiler drum..... 523
" " " report on duty trials of pumping engines..... 596
BARRUS, GEO. H., disc., test of triple-expansion engine..... 671
" " " notes regarding calorimeters..... 863
" " " application of Hirn's analysis..... 818
" " " steam-engine efficiencies..... 738
" " " steam reaction wheel..... 896
" " " water pyrometer..... 1051

PAGE

BARRUS, GEO. H., disc., performance of Worthington pumping engine.... 1012
" " " report on duty trials of pumping engines..... 583, 599
BAYLES, J. C., unveils portrait of A. L. Holley..... 1059
Belt dynamometer, S. P. Watt..... 694
Belts *vs.* rope for driving..... 245
Belt-testing machine..... 700
Bessemer, Sir Henry, portrait of..... 10–15
BINSSE, HENRY L., disc., engineering handbook..... 33
BIRD, W. W., the effect of the steam-jacket on cylinder condensation..... 873
" " disc., jet propulsion..... 907
BISSELL, GEO. W., an interesting experiment with a lubricant..... 221
" " disc., piston speeds of caloric engines..... 1045
Blake, Francis C., memorial notice of..... 1055
Blast furnace blowing engine, Fred. W. Gordon..... 676
Blowing engine for blast furnace..... 676
BOLE, W. A., a single-acting compound engine..... 275
Brine in refrigerating machines..... 353
Burgwyn, C. P. E., plans for river improvement..... 451

Cable road construction..... 56
Caloric engines, piston speeds of..... 1045
Calorimeters, notes regarding..... 825
Cameras in shops visited..... 618
CAMPBELL, A. C., disc., new process for cutting teeth of wheels..... 270
Carbon disulphide engine, efficiency of..... 155
Car hoist system of haulage..... 640
CARPENTER, R. C., heat transmission through cast-iron plates pickled in nitric acid..... 174
" " application of Hirn's analysis to engine testing, and a method of measuring directly the quality of steam in the clearance spaces..... 790
" " notes regarding calorimeters..... 825
" " disc., a new belt-testing machine..... 705
" " " heat transmission, etc..... 1026
Castings of steel *vs.* iron..... 720
Cast-iron plates pickled in nitric acid, conductivity of..... 174
Centrifugal force of flying rope..... 232
Chapman, Luke, memorial notice of..... 1057
Chimney draught: facts and theories, R. H. Thurston..... 85
Chloroform engine, efficiency of..... 155
CODMAN, JOHN E., disc., report on duty trials of pumping engines..... 581
Committee on standard duty trials of pumping engines..... 530
Comparison of steam tables..... 592
Comparison of the economy of compound and single cylinder Corliss condensing engines, each expanding about sixteen times, D. S Jacobus..... 943
Compound engine, a single-acting..... 275
Conant, Thos. P., memorial notice of..... 1056
Condenser, independent..... 650
Condensers, regulation of injection for..... 187
Cooling compound for car boxes..... 418

PAGE

COOPER, JNO. H., accident-preventing devices applied to machines 249
Corrosion in a boiler drum 518
Cost of rope for driving 236
Cranes, hydraulic travelling 202
Crouthers, James A., memorial notice of 1057
Cupola, melting 1045

DAVIS, E. F. C., disc., rapid melting in cupola 1046
" " " heat transmission through, etc. 1043
" " " performance of Worthington pumping engine 1013
" " " corrosion in a boiler drum 525
" " " the premium plan of paying for labor 767, 771, 773
" " " steel castings 717
" " " two rope haulage systems 640
DEAN, F. W., disc., report on duty trials of pumping engines 567
DENTON, J. E., performance of a Worthington high duty pumping engine of 1¼ million gallons per 24 hours against a head equivalent to 2,000 feet of water 975
" " special experiments with lubricants 405
" " performance of a 75-ton refrigerating machine of the ammonia absorption type 326
" " disc., interesting experiment with a lubricant 228
" " " report on duty trials of pumping engines 588
" " " heat transmission through cast-iron plates pickled in nitric acid 180
" " " authorities on the steam-jacket 501
" " " chimney draught : facts and theories 123
" " " new process for cutting teeth of wheels 272
" " " a novel form of flexible tubing 200
" " " rope driving 246
" " " light cable road construction 84
" " " effect of the steam-jacket on cylinder condensation 880
Discharging tubes, effect of 898
DURFEE, W. F., disc., water pyrometer 1051
Duty trials of pumping engines, report on 530
Dynamometer, a belt 694, 700

Effect of the steam-jacket on cylinder condensation, W. W. Bird 873
Efficiency of locomotives, committee on 9
ENGEL, LOUIS G., hydraulic hoisting plant for pier of Brooklyn Sugar Refining Co 286
" " disc., hydraulic travelling cranes 215
" " " " automatic regulation of injection water to condensers 195
" " " " corrosion in a boiler drum 521
Engineering congress in 1893 9-27
Engineering problem at Richmond, Va., W. H. Adams 451
Experiment with a lubricant, an interesting 221
Experimental determinations of the latent heat of ammonia and sulphur dioxide, D. S. Jacobus 307
Ericsson memorial 9

PAGE
Ether engine, efficiency of 155
Exact subdivision of an index-wheel into any required number of equal parts, W. A. Rogers 696

Fairbairn's and Tate's experiments 593
FALKENAU, ARTHUR, disc., some experiments with a screw bolt 788
Feed-water tests for duty trials 544
Flanges, committee on, discharged 620
Flexible tubing, novel form of 197
Flexure of elastic rings, De Volson Wood 911
Formulæ for duty trials of pumping engines 534
FREEMAN, JOHN R., disc., report on duty trials of pumping engines 572
Friction of screw-bolts 781

GALE, HORACE B., disc., chimney draught: facts and theories 123
Galvanic corrosion in boilers 526
GANTT, H. L., steel castings 710
" " disc., rapid melting in cupola 1046
" " " hydraulic travelling cranes 215
" " " the premium plan of paying for labor 769
GOBEILLE, JOS. LEON, disc., steel castings 717
" " " accident-preventing devices 261
GORDON, FRED. W., a blast furnace blowing engine 676
GRAVES, ERWIN, hydraulic travelling cranes 202
GRIMM, PAUL H., disc., rope driving 246
" " " corrosion in a boiler drum 521
" " " automatic regulation of injection water to condensers 193
Grip for cable railway 71
Grips for rope haulage 632
Grit in lubricated bearings 429
Grooves for cable plant 78

HALL, A. F., disc., report on duty trials of pumping engines 568
HALSEY, F. A., the premium plan of paying for labor 755
Handbook for engineers 33
Haulage systems, two rope 626
HAWKINS, JNO. T., disc., steel castings 720
" " " corrosion in a boiler drum 524, 527
" " " the premium plan of paying for labor 764, 770
" " " effect of the steam-jacket on cylinder condensation 885
" " " report on duty trials of pumping engines 598
" " " new process for cutting teeth of wheels 271
Heat transmission through cast-iron plates pickled in nitric acid, R. C. Carpenter 174
Heat transmission through cast-iron plates pickled in acid, Daniel Royse 1014
Hemp for rope driving 242
HENDERSON, GEO. R., disc., corrosion in a boiler drum 526
HENNING, G. C., reports progress for committee on standard methods of testing materials 614

PAGE
HENNING, G. C., disc., rapid melting in cupola 1046
" " " manganese-steel 969
" " " jet propulsion 906
HENTHORN, J. T., test of a triple-expansion engine 643
Herbertz cupola 1047
Hirn's analysis 740, 790
Hoisting plant, hydraulic 286
Holley, A. L., portrait of 10–14
Holley, portrait, address at unveiling of 1059
HOLLOWAY, J. F., disc., blast furnace blowing engines 685
" " " two rope haulage systems 640
Horse-power in rope driving 230
HOWE, H. M., manganese-steel 955
" " disc., water pyrometer 1052
" " " steel castings 719
" " " blast furnace blowing engines 688
HUNT, C. W., rope driving 230
HUNT, R. W., disc., manganese-steel 971
" " " steel castings 723
" " " the premium plan of paying for labor 776
HUSTON, C. L., disc., hydraulic travelling cranes 217
Hydraulic hoisting plant for pier of Brooklyn Sugar Refining Co., Louis G. Engel 286
Hydraulic travelling cranes, Erwin Graves 220

Ideal engine compared with real 729
Index-wheel subdivision 696
Indicator for high pressures 985
Injection water, regulation of 187
Institute of Engineers 6
Interesting experiment with a lubricant, Geo. W. Bissell 221

JACOBUS, D. S., comparison of the economy of compound and single cylinder Corliss condensing engines, each expanding about sixteen times 943
" " experimental determinations of the latent heat of ammonia and sulphur dioxide 307
" " disc., test of a triple-expansion engine 672
" " " report on duty trials of pumping engines 590
James River improvement at Richmond 451
Jet propulsion, J. Burkitt Webb 904
JEWETT, L. C., disc., rapid melting in cupola 1047

KENT, WM., disc., report on duty trials of pumping engines 571
" " the premium plan of paying for labor 768
" " test of triple-expansion engine 672
" " blast furnace blowing engines 684
" " steel castings 717
" " a new belt-testing machine 707

PAGE

KENT, WM., disc., heat transmission through cast-iron plates pickled in nitric acid 180
KNEASS, STRICKLAND L., disc., jet propulsion 897

Latent heat of ammonia and sulphur dioxide 307
Lead for valves of blowing engines 686
Lead-lined brasses for car-journals 417
Leakage test in pumping engine 549, 569
Leather packing for hydraulic machinery 216
LEMOINE, L. R., disc., hydraulic travelling cranes 218
LEWIS, WILFRED, disc., some experiments with a screw bolt 784
Library Association report, 1890 24
Light cable road construction, Frank Van Vleck 56
Lubricant, an interesting experiment with a 221
Lubricants, special experiments with 405

Manganese-steel, H. M. Howe 955
Manilla rope for driving 235
MCBRIDE, JAS., some experiments with a screw bolt 781
" " automatic regulation of injection water to vapor condensers 187
" " disc., corrosion in a boiler drum 518
" " " rope driving 246
" " " new process for cutting teeth of wheels 272
" " " the premium plan of paying for labor 771
" " " blast furnace blowing engines 688
MCELROY, SAMUEL, disc., corrosion in a boiler drum 528
MCFARLAND, W. M., disc., heat transmission through cast-iron plates pickled in nitric acid 182
Mechanical and physical properties of sulphur dioxide (SO_2), De Volson Wood 137
Mechanical stokers, W. R. Roney 921
Memorial notices 1055
MILLER, T. SPENCER, disc., rope driving 243
" " " two rope haulage systems 639
MOORE, DOUGLAS G., disc., hydraulic travelling cranes 216
MORGAN, THOS. R., SR., disc., steel castings 720

NAGLE, A. F., disc., water pyrometer 1049
NASON, C. W., disc., water pyrometer 1052
" " " heat transmission through, etc 1043
" " " steam reaction wheel 907
" " " corrosion in a boiler drum 520
" " " jet propulsion 906
Negative slip of pumps 596
New belt-testing machine, G. I. Alden 700
New process for generating and cutting the teeth of spur wheels, Ambrose Swasey 265
NORRIS, R. VAN A., two rope haulage systems 626
" " disc., the premium plan of paying for labor 771

PAGE

Notes regarding calorimeters, R. C. Carpenter 825
Novel form of flexible tubing, Thos. R. Almond 197
Nozzles as water meters 575
" effect of, on outflow 898

Oil-line pumping 975

Padgham, Frank W., memorial notice of 1055
PARKER, CHAS. H., disc., steel castings 718
PEABODY, C. H., application of Hirn's analysis to multiple expansion engines 740
" " disc., application of Hirn's analysis 817
" " " comparison of compound and single cylinder Corliss engine 951
" " " notes regarding calorimeters 861
Perfect screw problem, additional contribution to 725
Performance of a 75-ton refrigerating machine of the ammonia absorption type, J. E. Denton 326
Performance of a Worthington high duty pumping engine of 1½ million gallons capacity per 24 hours against a head equivalent to 2,000 feet of water, J. E. Denton 975
Performance of a steam reaction-wheel, J. Burkitt Webb 888
Permanent way for cable roads 58
Photographic cameras on excursions to shops 618
Power plant for cable railway 74
Premium plan of paying for labor, F. A. Halsey 755
President's address, Oberlin Smith, 1890 42
Proceedings, annual meeting, Richmond, 1890 3
Proceedings, Providence meeting (XXIIId) 605
Propelier tubes, effect of 906
Propulsion by jets 904
Pumping engine, duty trials, standard 530
Pumping engine, performance of 975
Pyrometer, water type 1049

Real engine compared with ideal 729
Report of committee on duty trials of pumping engines, standard method for 530
Report on headquarters at Columbian Exhibition 618
Report on Institute of Engineers 6
ROGERS, W. A., an additional contribution to the perfect screw problem 725
" " on the exact subdivision of an index-wheel into any required number of equal parts 696
" " disc., manganese-steel 971
" " " water pyrometer 1053
RONEY, W. R., mechanical stokers 921
Rope driving, C. W. Hunt 230
Rope haulage systems 626
ROYSE, DANIEL, heat transmission through a cast-iron plate pickled in acids 1014

PAGE

Screw bolts, friction of 781
Sheaves for cable railway 62
Sheaves for rope haulage 630
Single-acting compound engine, W. A. Bole 275
Slip of pumping engine 1000
Slip of pumps 596
SMITH, JESSE M., disc., engineering headquarters in Chicago, 1893 32
SMITH, OBERLIN, president's address, 1890 42
" " disc., rope driving 246
" " " accident-preventing devices 262
" " " hydraulic travelling cranes 217
" " " new process for cutting teeth of wheels 271
" " " steel castings 716, 718
SMITH, SCOTT A., disc., corrosion in a boiler drum 526
" " " rope driving 245
" " " authorities on the steam-jacket 511
Special experiments with lubricants, J. E. Denton 405
Some experiments with a screw bolt, Jas. McBride 781
Some properties of ammonia (second paper), De Volson Wood 133
Specific heat of ammonia 350
SPERRY, CHARLES, disc., corrosion in a boiler drum 523
Spur wheels, new process for cutting 265
Standard method for duty trials of pumping engines 530
Steam tables, comparison of 592
Steam-engine efficiencies: the ideal engine compared with the real engine, R. H. Thurston 729
Steam-jacket, authorities on 462
Steam-jacket, effect of 873
Steel, manganese 955
Steel castings, H. L. Gantt 710
STIRLING, ALLAN, disc., corrosion in a boiler drum 519, 523
Stokers, mechanical 921
Strength of rope 231
Stroke register 981
Subdivision of an index-wheel 696
Sulphur dioxide, latent heat of 307
Sulphur dioxide, mechanical and physical properties of 137
SUPLEE, H. H., disc., steel castings 722
" " " heat transmission through, etc 1043
" " " effect of the steam-jacket on cylinder condensation 886
" " " the premium plan of paying for labor 769
SWASEY, AMBROSE A., a new process for generating and cutting the teeth of spur wheels 265
SWEET, JNO. E., disc., hydraulic travelling cranes 214
" " " steam reaction-wheel 901
" " " jet propulsion 906

Teeth of wheels, new method for cutting 265
Test of a triple-expansion engine, J. T. Henthorn 643
Theoretical investigation of the efficiency of vapor engines, De Volson Wood 155

PAGE

Thermostat for injection water or hot well 189
Thermometer cups for testing 825
THURSTON, R. H., chimney draught: facts and theories 85
" " steam-engine efficiencies: the ideal engine compared with the real engine 729
" " authorities on the steam-jacket: facts and current opinion 462
" " disc., effect of steam-jacket on cylinder condensation ... 879
" " " comparison of compound and single cylinder Corliss engine 951
" " " application of Hirn's analysis 815
" " " interesting experiment with a lubricant 227
" " " test of triple-expansion engine 671
" " " notes regarding calorimeters 859
" " " report on duty trials of pumping engines 563
" " " performance of a Worthington pumping engine .. 1010
" " " heat transmission through cast-iron plates 1025
" " " application of Hirn's analysis 752
TOMPKINS, S., disc., new process for cutting teeth of wheels 272
Topical discussions, Richmond meeting 518
" " Providence meeting 1045
Travelling-cranes, hydraulic 202
Triple-expansion engine, test of 643
Tubing, flexible 197
Turnouts on cable railway 67
Two rope haulage systems, R. Van A. Norris 626

Valves for blowing engines 681
VAN VLECK, FRANK, light cable road construction 56
Vapor engines, efficiency of 155

WATT, S. P., a belt dynamometer 694
WEBB, J. BURKITT, jet propulsion 904
" " performance of a steam reaction-wheel 888
